

TRT Mini Rail system TRT 04

TRT Mini-Rail system is a rail free solar racking system designed for trapezoidal metal roof, based on different size of the trapezoidal metal sheet, TOP RACK provides a different length of the mini rail. To make an easy and fast installation, TOP RACK also provides other mount accessories, like the Micro inverter racking kit, bonding jumper, grounding lug and so on. The high-quality aluminum and stainless-steel screws provide the system a long period service cycle.

- **Various lengths available**
- **Simple components composition**
- **Self-tapping screws**
- **Low transport cost**
- **Not limited by module size**
- **25 years warranty**

FEATURES

PARTS OF SOLAR MOUNTING SYSTEM

Mini Rail A116

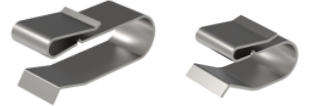

Trapezoidal metal sheet tile, customized length, portrait panel array ST5.5*25 thin sheet bolts, EPDM pad

Mid Clamp 3010355

Black surface treatment, fits modules from 30~40mm thick, with grounding device

Cable Clip 1011004

Cable clip is a universal wire management clip that can be used with all systems

Grounding Lug 3010402

Not limited by the type of rail, directly mounted on the module frame

Bonding Jumper 3010406

To connect N-S modules or E-W modules

Micro Inverter Racking 3010167

Rail-less based system micro inverter fastener, SS304 made

Version 1.1 10/16/2024.
